

Article number	4610111
Article designation	Sealing section

This sealing section is completely made of EPDM and has a steel insert. Because of the high bending radius of this sealing profile, it is easy to bend around corners. The rubber profile is easy to fasten and has two functions: protecting from sharp edges and sealing. It is temperature resistant from -40°C up to +100°C.

General information

Assembly profile	EPDM quality ES 60
Assembly sealing lip	EPDM quality ES 06
Assembly insert	Steel 1.0347
Clamping range	1-2,5 mm
Colour	Black

Directives

Reach	Compliant
RoHS - RL 2002/95/EG (EC)	Compliant
Altauto - RL 2000/53/EG (EC)	Compliant
